Working Prototype Known Problems Report

List of Problems/Issues

1. The removal of candidate messes up the skip to the end result
2. When you hover over pie or chord, blue inner circle is still showing.
3. Major Lag when you hover over the pie or chord
4. Website is not responsive across different devices
5. Candidates' names (text) overlap in smaller resolutions
6. Hover: chord diagram is not displaying the specific chords
7. Need to implement loading the datasets dynamically
